By the time the British began to contemplate a withdrawal from India, 565 princely states were officially recognized, in addition to thousands of zamindaris and jagirs, which were in effect feudal estates. The stature of each Princely State was defined by the number of guns fired in salute upon a ceremonial occasion honoring one or other of the princes. These ranged from nine-gun to twenty-one-gun salutes and, in a great many cases, no salute at all. The Princely States were reasonably evenly spread between ancient Muslim and Hindu dynasties, but bearing in mind the minority status of Muslims in India, Muslims were disproportionately represented. This tended to grant Muslims an equally disproportionate share of what power was devolved to local leaderships, and it positioned powerful Muslim leaders to exert a similarly unequal influence on British policy. It stands to reason, therefore, as India began the countdown to independence after World War II, that the Indian Muslim leadership would begin to express anxiety over the prospect of universal suffrage and majority rule. At less than 20 percent of the population, Indian Muslims would inevitably find themselves overwhelmed by the Hindu majority, and as the British prepared to divest themselves of India,

ancient enmities between Hindu and Muslim, long papered over by the secular and remote government of Britain, began once again to surface. While the conflict between India and Pakistan is multi-faceted, there has always been great division over the Punjab. The word "Punjab" derives from the Persian words "Punj," meaning "five," and "āb," meaning river, combined into the "Land of the Five Rivers." These rivers are the five major tributaries of the River Indus - the Jehlum, the Chenab, the Ravi, the Beas and the Sutlej. They flow southwest off the southern slopes of the Himalayas, meeting the Arabian Sea just south of the modern Pakistani port city of Karachi. This is the valley of the Indus River, the site of some of the oldest and most accomplished civilizations in the world. The Punjab is defined by the floodplains of the five rivers that give the area its name, and as a result, it is one of the most fertile regions of South Asia. However, since the 1947 partition of India, the "Land of Five Rivers" is something of a misnomer, as the partition not only divided India but also the Punjab. The eastern part of Punjab remained a province of India, while the western section was ceded to the newly created Pakistan. As a contiguous region, the Punjab retains its essential character, but now the Indian state of Punjab has only two rivers, the Beas and the Sutlej, and the Pakistani province has the Jhelum, Chenab and Ravi. ### Publisher description

Five hundred years ago, Guru Nanak founded the Sikh faith in India. The Sikhs defied the caste system; rejected the authority of Hindu priests; forbade magic and idolatry; and promoted the equality of men and women -- beliefs that incurred the wrath of both Hindus and Muslims. In the centuries that followed, three of Nanak's nine successors met violent ends, and his people continued to battle hostile regimes. The conflict has raged into our own time: in 1984 the Golden Temple of Amritsar -- the holy shrine of the Sikhs--was destroyed by the Indian Army. In retaliation, Sikh bodyguards assassinated Prime Minister Indira Gandhi. Now, Patwant Singh gives us the compelling story of the Sikhs -- their origins, traditions and beliefs, and more recent history. He shows how a movement based on tenets of compassion and humaneness transformed itself, of necessity, into a community that values bravery and military prowess as well as spirituality. We learn how Gobind Singh, the tenth and last Guru,

welded the Sikhs into a brotherhood, with each man bearing the surname Singh, or "Lion," and abiding by a distinctive code of dress and conduct. He tells of Banda the Brave's daring conquests, which sowed the seeds of a Sikh state, and how the enlightened ruler Ranjit Singh fulfilled this promise by founding a Sikh empire. The author examines how, through the centuries, the Sikh soldier became an exemplar of discipline and courage and explains how Sikhs -- now numbering nearly 20 million worldwide -- have come to be known for their commitment to education, their business acumen, and their enterprising spirit. Finally, Singh concludes that it would be a grave error to alienate an energetic and vital community like the Sikhs if modern India is to realize its full potential. He urges India's leaders to learn from the past and to "honour the social contract with Indians of every background and persuasion."

Ranjit Singh has been largely written out of accounts of India's past by British historians, yet he was one of the most powerful and charismatic figures in Indian history. He unified the warring chiefdoms of the Punjab into an extraordinary northern empire, built up a formidable army, kept the British in check to the south of his realm, and closed the Khyber Pass through which plunderers had poured into India for centuries. His consummate humanity was unique among

empire-builders. He gave employment to defeated foes, honored faiths other than his own, and included Hindus and Muslims among his ministers. A colorful character, he was inspired by the principles of peaceful coexistence uniquely articulated by the Sikh Gurus, firm in upholding the rights of others, and unabashed in exercising his own. The authors of this first full-length biography in English make use of a variety of eyewitness accounts, from reports by Maratha spies at the Lahore Durbar to British parliamentary papers and travel accounts. The story ends with the controversial Anglo-Sikh Wars following Ranjit's death, which saw the fall of his empire in the hands of his successors whose internecine conflict was exploited by the British. Coinciding with the 300th anniversary of the consecration of the Sikh holy scriptures, this book honors a vital figure in Sikh history.
