anything to do with ancient Egypt. When they stumble upon a deserted storage yard, Melanie and April decide it's the perfect spot for the Egypt Game. Before long there are six Egyptians, and they all meet to wear costumes, hold ceremonies, and work on their secret code. Everyone thinks it's just a game until strange things start happening. Has the Egypt Game gone too far?

The rich history of Egypt has provided famous examples of board games played in antiquity. Each of these games provides evidence of contact between Egypt and its neighbours. From pre-dynastic rule to Arab and Ottoman invasions, Egypt's past is visible on game boards. This volume starts by introducing the reader to board games as well as instruments of chance and goes on to trace the history and distribution of ancient Egyptian games, looking particularly at how they show contact with other cultures and civilizations. Game practices, which were also part of Egyptian rituals and divination, travelled throughout the eastern Mediterranean. This book explores the role of Egypt in accepting and disseminating games during its long history. Over the last few years, the extent and the modes of contact have become better understood through museum and archival research projects as well as surveys of archaeological sites in Egypt and its surrounding regions. The results allow new insight into ancient Egypt's international relations and the

Both a symbol of the Mubarak government's power and a component in its construction of national identity, football served as fertile ground for Egyptians to confront the regime's overthrow during the 2011 revolution. With the help of the state, appreciation for football in Egypt peaked in the late 2000s. Yet after Mubarak fell, fans questioned their previous support, calling for a reformed football for a new, postrevolutionary nation. In Egypt's Football Revolution, Carl Rommel examines the politics of football as a space for ordinary

Egyptians and state forces to negotiate a masculine Egyptian chauvinism. Based on several years of fieldwork with fans, players, journalists, and coaches, he investigates the increasing attention paid to football during the Mubarak era; its demise with the 2011 uprisings and 2012 Port Said Massacre, which left seventy-two dead; and its recent rehabilitation. Cairo's highly organized and dedicated Ultras fans became a key revolutionary force through their antiregime activism, challenging earlier styles of fandom and making visible entrenched ties between sport and politics. As the appeal for football burst, alternative conceptions of masculinity, emotion, and power came to the fore to demand or prevent revolution and reform.

Concise, convincing book emphasizes relationship between Greek and Roman athletics and religion, art, and education. Colorful descriptions of the pentathlon, foot-race, wrestling, boxing, ball playing, and more. 137 black-and-white illustrations.

Looks at some of the sports and games of the ancient world from seven different geographic regions as they are currently understood, and includes suggestions on how to adapt many of the games to modern use.

Discusses the physical features, history, government, people, culture,
