Based on a large-scale international study of teachers in Los Angeles, Chicago, Ontario, and New York, this book illustrates the ways increased use of high-stakes standardized testing is fundamentally changing education in the US and Canada with a negative overall impact on the way teachers teach and students learn. Standardized testing makes understanding students' strengths and weaknesses more difficult, and class time spent on testing consumes scarce time and attention needed to support the success of all students—further disadvantaging ELLs, students with exceptionalities, low income, and racially minoritized students.

Standardized test-taking skills for reading, math and language of grade 3.

This document describes, new, province-wide standards that school boards must meet when developing, implementing, and monitoring Individual Education Plans (IEPs) for exceptional students, in accordance with Regulation 181/98 of the Education Act, and for students not identified as exceptional who are receiving a special education program and services.--Introd., p. 3.

society. In her memoirs, she talks about her work, which broke with convention to deal with issues like racism and women's sexuality, and her relationships with family, friends, and lovers.

In the current environment of deepening class and income inequality, it is essential to understand the socio-economic conditions that shape the health of individuals and communities. Now in its third edition, Dennis Raphael's *Social Determinants of Health* offers a comprehensive discussion of the primary factors that influence the health of Canada's population. This seminal text on the social determinants of health contains contributions from top academics and high-profile experts from across the country. Taking a public policy approach, the authors in this edited collection critically analyze the structural inequalities embedded in our society and the socio-economic factors that affect health, including income, education, employment, housing, food security, gender, and race. The thorough updates to this edition include a greater focus on the political mechanisms that explain the distribution of the social determinants of health and additional material on public policy, early childhood education in Canada, and the determinants of Indigenous peoples' health. Rich in pedagogical tools including critical thinking questions and lists of recommended readings and online resources, this book will actively engage students and researchers alike.

In this classroom favorite, a resourceful chicken enlists her farm friends to get a coveted hat from Scarecrow. A delightful circular tale and fall read-aloud! Chicken really admires Scarecrow's straw hat. Scarecrow would gladly trade his hat for a walking stick to rest his tired arms. Chicken doesn't have a walking stick to trade—but she knows someone who does.

Author-illustrator Ken Brown pairs vivid, realistic watercolors with an inventive plot, engaging sequencing, and repetition to tell a charming circular story packed with relatable themes of friendship, bartering, and problem-solving. This award-winning title is an ideal story time choice for autumn and harvest themes.

"As social justice has entered the mainstream, the connection to mathematics has followed. People see it in their everyday lives, whether it's patterns pertaining to global warming, or the economics of the austerity movement; scratch the surface and you'll be speaking mathematics. In *Math that matters 2*, educator and author David Stocker has produced another 50 lesson plans designed for students in grades 6-9 that link math with social justice."--
