Dynamic and engaging, Virtual Clinical Excursions is a workbook and CD-ROM package that guides users through a virtual hospital featuring highly complex and diverse patients. Complementing core textbook reading assignments in Phipps: Medical-Surgical Nursing: Health and Illness Perspectives, 7th Edition, lessons in the workbook provide a perfect opportunity for users to practice what they are learning in the text in a realistic clinical environment. Covers everything from general medical-surgical nursing concepts related to adult patients through pathophysiologic mechanisms to the nursing management of a full range of medical-surgical problems. Explores each disease and disorder in detail - discussing its etiologic and pathophysiologic basis, clinical manifestations, collaborative care, and nursing management. Includes a guided tutorial which shows students how to work with a patient in a virtual hospital · collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions) · record patient data · listen to a report and itemize a patient's problems and high-priority concerns · sometimes administer medication · and more. Emphasizes the importance of patient care - from nursing assessment, diagnosis, planning, and implementation to evaluation. Requires students to document client-nurse interactions - retrieving clinical data, maintaining quality and continuity of care, tracking client outcomes, and meeting current practice standards. Produced in conjunction with the Virtual Clinical Excursions CD-ROM authors: Jay Shiro Tashiro, PhD, RN; Ellen Sullins, PhD; Gina Long, RN, DNSc

Designed to accompany Ignatavicius and Workman's Medical-Surgical Nursing: Patient-Centered Collaborative Care, 7th Edition, this study guide helps you understand and apply material from each chapter in the text, and gives you added support as you learn to make safe and effective clinical decisions. Study/review questions provide a review of key content using a variety of question formats, including a high percentage of questions in traditional and alternate NCLEX® Examination formats. Answers are provided in the back of the book. Case studies in most chapters give you the opportunity to apply higher-level thinking skills to true-to-life clinical scenarios. NEW! Increased emphasis on clinical decision-making prepares you to confidently make safe and effective decisions in clinical practice. NEW! Documentation practice questions have been added to select case studies to help you take the next step in patient care, just as you would in clinical practice.

The Clinical Nursing Judgment Study Guide for Ignatavicius & Workman's Medical-Surgical Nursing: Patient-Centered Collaborative Care, 8th Edition, provides extensive practice in developing clinical judgment and reasoning skills while facilitating deep learning of the core textbook content. Completely revised under new authorship and with a fresh emphasis on NCLEX-style questions and core textbook content, the 8th edition Study Guide ensures that you are thoroughly prepared for today's NCLEX Examination and safe nursing practice. Provides a thorough review of core textbook content while uniquely developing your clinical nursing judgment skills. Emphasis on clinical decision-making prepares you to confidently make safe and effective decisions in clinical practice. Answer key in the back of the book facilitates self-study. NEW! Stronger emphasis on NCLEX Exam question formats, including alternate-item formats, familiarizes you with NCLEX question formats to better prepare you for the NCLEX Examination. NEW! Tips for Student Success introductory chapter helps you apply academic knowledge to the clinical setting. NEW! Renewed emphasis and focus on core textbook content helps you focus limited study time on learning core medical-surgical content from the Ignatavicius & Workman textbook, rather than searching for content from other sources. NEW! Extensive revision under new authorship facilitates learning of essential textbook content with greater quality, accuracy, and consistency. NEW! Expanded use of long-term care questions addresses the shift in clinical sites toward long-term skilled care settings.

Lewis's Medical-Surgical Nursing AN2 5th edition continues as the most comprehensive, go-to reference for developing the core aspects of professional nursing care in Australia and New Zealand. With a clear framework of person-centred care, critical thinking, clinical reasoning and evidence-based practice underpinning the assessment and management of adults with complex, acute and chronic healthcare issues, the 5th edition provides nursing students with the foundations for developing expert clinical practice. Thoroughly revised, the new edition responds to key health priorities, providing an innovative approach to addressing Indigenous health in Australia and New Zealand. Greater emphasis is also given to the issues of: self-care; examination of the nurse's role within an interprofessional team; and management of the deteriorating patient, to reflect the changing nature of nursing practice in the contemporary healthcare environment. Additional resources on Evolve eBook on VitalSource Student and Instructor Resources Review Questions Conceptual Care Map creator Student Case studies Fluids and Electrolytes tutorial Nursing Care Plans Instructor Resources Test Bank PowerPoint slides Image bank Now available in either hard cover or 2-volume set paperback formats New chapters: Chapter 3: Stress and coping. This chapter explores theoretical models of stress, the impact of stress on human functioning, and strategies for coping with stress in the context of nursing practice and healthcare delivery Chapter 5: Working with Indigenous peoples of Australia and New Zealand. Co-authored by highly respected Indigenous and non-Indigenous academics from Australia and New Zealand, the chapter role-models Indigenous and non-Indigenous health professionals working alongside each other to improve health outcomes, and the practical role that nurses can play to improve the healthcare experiences of Indigenous people. Chapter 69: Recognising and responding to the deteriorating patient. Authored by one of Australia's leaders in emergency response education, this chapter is designed to develop capability in relation to the National Safety and Quality Health Service Standards 2017, specifically Standard 8: Recognising and responding to acute deterioration. Chapter 70: Cardiopulmonary resuscitation: basic and advanced life support. Based on the Australian and New Zealand Committee on Resuscitation (ANZCOR) guidelines, this chapter promotes a problem-solving approach to the management of a patient in cardiac arrest by providing the science behind the techniques and interventions used to treat a patient in cardiac arrest.

Written by a dedicated team of expert authors led by Sharon Lewis, Medical-Surgical Nursing, 8th Edition offers up-to-date coverage of the latest trends, hot topics, and clinical developments in the field, to help you provide exceptional care in today's fast-paced health care environment. Completely revised and updated content explores patient care in various clinical settings and focuses on key topics such as prioritization, clinical decision-making, patient safety, and NCLEX® exam preparation. A variety of helpful boxes and tables make it easy to find essential information and the accessible writing style makes even complex concepts easy to grasp! Best of all - a complete collection of interactive learning and study tools help you learn more effectively and offer valuable, real-world preparation for clinical practice.

Mental illness directly or indirectly affects everyone, and yet it makes the sufferer feel completely alone. I am speaking out, to tell my story, in hopes that others may find the courage to heal. I have been to hell and back, but I am strong enough now to speak up and to tear down the walls caused by stigma. Everyone deserves some happiness and understanding, which I hope you will find within this book.

One of the brothers-Robert I. Habetrawongo, MD-is a cardiologist. This is the story of his exploits as a physician and research scientist. During his internship he was put into the limelight in England by transplanting a baby's heart without any prior experience, and the queen of England had crowned him Sir Roberts for his deed. Sir Robert had become a hero to the queen because of his untiring efforts in heart surgery. Because of this, he, the hero, had become well-known and had become a target by well-known activists and terrorists. His sister Grace Habetrawongo, a journalist, had aided her brother Sir Robert by recording everything that he did and accomplished. The publication of her monthly journals had created a firestorm worldwide.

Trusted by nursing fraternity for more than 50 years, Brunner and Suddarth's Textbook of Medical-Surgical Nursing layers essential patient care information, engaging critical thinking exercises and diverse features to help students learn critical content. The South Asian edition is comprehensively updated to customize and keep pace with South Asia's health care environment by including Indian/Asian epidemiologic data of common diseases and disorders, flowcharts of pathophysiologic processes of various diseases and disorders and psychosocial concepts, which is contemporary to South Asian scenario. Furthermore, essential medical-surgical nursing content and diseases/disorders, which are specific to South Asia, are added to make this textbook most suitable to South Asian learners.

Lippincott Manual of Medical-Surgical Nursing Adaptation of Nettina: Lippincott Manual of Nursing Practice, 10/Suresh K. Sharma This book is south Asian adaptation of Nettina: Lippincott Manual of Nursing Practice, 10/e.
