## Read Free Table E The Standard Normal Distribution

Find the 97.5th quantile of the standard normal distribution. We first find the value 0.9750 in the normal table, and get the z-value (1.96) from the corresponding row and column. The 97.5th quantile of the standard normal distribution is 1.96.

from the mean is given by the standard deviation.

## ~~The Standard Normal Distribution~~

The standard normal distribution table is a compilation of areas from the standard normal distribution, more commonly known as a bell curve,

# Read Free Table E The Standard Normal Distribution

which provides the area of the region located under the bell curve and to the left of a given z- score to represent probabilities of occurrence in a given population.
